Major,

A couple of issues with this Complaint Receipt.

1. This should be an administrative investigation with a conclusion and disposition.
2. At the very least, specials from Williams, Miller and Campolongo are needed. Ideally, a statement from the complaint would accompany the investigation.
3. Also, based on the narrative, they went to Drummer's residence because the neighbor said there were people at the house who should not be there??? What were they looking for/why? Did they open drawers/doors that shouldn't have been opened? What about the suspicious vehicle? All the issues need to be tied together in a cohesive narrative.
4. What is his rationale for mediation?

Let us know if there are any questions.

Due Jan. 28, 2015

Thanks!
